STEADY, THERE!

The Jury in New York Has Returned a Sealed Verdict,

To Be Opened and Declared When the Court Meets, Not Before.

No Burying "Mule" Shall Proclaim It to the Country in Advance.

Republican Prospects of Carrying New York Continually Improving.

The Democrats Seeking to Terrify Timid People with Threats.

A Visit to the Headquarters of the "First Regiment Democratic Volunteers."

Republicans Throughout the Country Demand a Fair Count, Most Whom It Will.

Inharmonious Utterances of Election Hawker—The Republicans Ladies Calmly Confident.

The New York Democratic State Committee has issued an address, the tone of which indicates that the Brothers are much afraid that the frauds by which they expected to carry the Empire State have been already discovered, and that the Republican movements will insist on their extinction. The address assumes that the Democrats have carried the State by a decisive plurality, as "ascertained and declared by the election officers, and of public record throughout the State." But the "election officers," who are the Boards of Supervisors in the various counties, have not yet met. They will not meet until tomorrow, and the returns for the election will not be certified to until after to-night—and secrecy, which will no doubt accept the action they and not for-mality attributes. This official canvass must determine the result. The reports from Democratic County Clerks and officials, which, there is good reason to believe, have been doctored in order to give Hancock and his committee ground for claiming the State, cannot be adopted as official and will not be. The so-called "affidavits" referred to in the address does not settle anything. The canvass must be conducted according to law and by the constituted authorities. The assertions of irregularities by parties will not be permitted to take precedence of properly certified returns.

The anxiety of the Democrats in view of the determination of the Republicans to have a speedy and honest count is prima facie evidence that the Democratic managers fear that errors on the part of their subordinates may be discovered. If they felt no anxiety of Cleveland's election as they pretend they would have no fear of the closest investigation and scrutiny.

The members of the National Republican Committee seem to be confident that States has carried New York State by such majorities, and that he is elected President. The agents of the committee who have been actively at work for the last four days are reported to have obtained information amply justifying this confidence. Every precaution has been taken to prevent the Democrats from grabbing by fraud or "doctored" returns. The Democrats are badly frightened because of the prompt measures taken by the Republicans and are trying to excite their followers to support them if necessary by force. The Republicans cannot be stampeded by threats or bluster. The National Republican Committee will be conducted by the patriotic people of the country to be interested chiefly to have a fair count. The methods of the Democrats of Mississippi and Louisiana will not be permitted in New York. The honest official count in that State will decide the election.

NEW YORK.

A BETTER OUTLOOK

for Republican success developed themselves in New York City last night. Public interest in the State has improved greatly since yesterday morning. Aside from the discovery of the errors in the footings on the Tammany assistance which netted a gain of 400 for States in the city and the reported fraud perpetrated on primary to secure to a local Democratic candidate which may cause the loosing out of the vote of a ward giving Cleveland 300 majority, there were several small Republican gains made in different portions of the State. The count of the Democratic National Committee comprehends 20,000 majority for Cleveland. This does not comprise the 40 odd votes made in the city yesterday but one of the shallest Cleveland tapers in other places. In addition to discoveries of the peculiar Democratic frauds at New Lots in Kings County, where the county of 700 votes cast over the regular dozen each Democratic subscribers and tracts. In addition to exposition of the frauds perpetrated through illegal voting in Long Island City, and the recording of similar votes in the ward city, and of the same class of colonists, frauds in other parts of the State, and of course a fear has not completed the other errors which have been in the footings of the Republican canvass-ers and have not yet been made public, but which will be exposed and proved in the canvass by electors next Tuesday.

DEMOCRATIC PANIC.

The Democratic managers have that there result is wrong and have alleged gigantic conspiracy. They now know that they have no such foundation, beyond claim for a gigantic lie, for having the ob-ject Democratic leaders, are seeking to bully it through by terrifying the people with dreams of trouble and practice they and by frightening shallow. Their power have believe the honest voters of their party will choose circumstance, hesitating then to stake hard-earned property. Their last of fraud against the Republicans is the pretext one of "free recall," and a recount in Monroe, Kent, and the other portions of the Empire Labor Reform and similar political villainies. If the Democratic managers have they had a plurality that would be secure, conditions, and good-natured and would say: "The Republicans are beaten, but it is the duty as well as the privilege of their organization to stand up for a fair count." They know that under New York laws and with their own party in possession of the State Canvassing Board they are at least as sure of this play and as honest count as the Republicans. But they do not know that they have a majority and are not willing to rest their chances on a person test for the chief count and a powerful contest of the vote. They go back to their tactics of 1880 and threaten such vote in the large cities and and war at Washington in March. While putting following the arch against the corporations, they are secretly in collusion with the chief corporations and causing their newspapers on every given to them. The Tammany city of the Democracy is frightened by seeing a last one night on fifty arrests to choke a vote brought to a Sergeant's room in front of Jay Gould's house and to attempt to swindling them. "Stone, hang, hang, hang Jay Gould!" and the men had to dust thereof of the Republicans & this to touch from their Federal Intelligencer to make terms with him and to guarantee him protection of and increased privileges for his railway and telegraph monopoly if he would get the Democratic through. It is they that the Democratic party to want to hang a man with a pull can buy and make a deal with him for his own benefit the next.

STATE AND SUBORDINATE.

While Barnum stirs at one side of the table and Jim sits the rest of the country some of "Jones" and respectable corruption—Chairman of subdivision fame, and also a committee identified with many corporations—Counsel of the Delaware & Hudson on the other side, representing Gould and the Vanderbilts and Jones, and supplying on their campaign committee the money with which to run the Democratic press of corruption and to pay the expenses of general and Democratic county in the State and nothing to arise may to help them for Cleveland into the Presidency.

With Barnum, Jones, and Vanderbilt all as backbreakers and all "Jones" and "corporation corruption" through Democratic proclamation issued, in the public, frauds committed by their party and voter their machine are daily being exposed. One of these frauds, perpetrated under the shadow of the State Capitol at Albany by counting ballots from their official depository and changing names with and in order to steal in a County Treasurer, illustrates the villainy that are actively practicing while on loudly crying out for a fair count in the ballot. This exposure secures the Democratic. It will keep and finally run a little county office, as it has from about the polls closed Tuesday night, much more will it keep and finally for the Presidency.

When the fact appointed from Chamberlain came out in New York the agent of another, a great minister was committed, giving Blaine a majority over and Cleveland 300 more than belonged to him. The return from the Second District of the Tenth Ward in City was sent in as soon as the count was made, as follows: Blaine, 500; Cleveland, 400; Butler, 20; St. John, 1. The vote that should have been sent from Blaine 500 and Cleveland 90, and it was so reported last night. The Institution sent it to the Baker vote and raised 500 from Cleveland.

AMERICAN QUICKLY SUPPRESSED.

The acceptance of the various pronunciamentos, issuing a secret alliance with Cleveland carry to the managers, furnished the money for the campaign corporate, and no longer the interpretation is private, was illustrated yesterday by Secret of the Democratic & this saying to a member of the Republican National Committee: "I will have way if you have no fear voice of Blaine's election, and as to count for the same way might and electors when the Republicans quietly explain: "If Blaine has one legal vote proving no interest to see it counted and his election declared, and if he is elected we intend to see the vote." He was, more actively, and were over to headquarters to help Barnum. While he was doing this the same afternoon W. H. Vanderbilt was counting around the Western Hotel shouting the letter of congratulation to had written Cleveland, and saying: "The Democrats have been stealing for twenty-four years, and honest men now have voted to stop it." Vanderbilt and Barnum, alike by other large railway corporations, like the Chicago, Burlington & Quincy, formed the rank of Cleveland's managers, and on grounds are to secure their and desperate love at the thought of Cleveland's subjugation over the hungry and thirsty Democratic nothing its office or those railway magnates who thought they had made such powerful combination for Cleveland that he could not be defeated.

As part of the Democratic game of stirring the body to terrify the public and alarm business interests, a report has been actively circulated by the Democrats being that one hundred and fifty "toughs" have been organized and enrolled and here, whose to vote the First Regiment of Cleveland Volunteers, to help over Cleveland. It is pure invention. No such organization thing has been done. But the Democrats rely the story and use it about to get up a frightening the friends of law and order.

REPUBLICAN CONFIDENCE.

All the States will vote when the Republican committees confident. Reports from Republican Central Committees in every State heard from yesterday were of most encouraging character. The Republicans of Missouri and Illinois are confident of success by good majorities. Indiana and Wisconsin are claimed by the Republicans by safe majorities. The Republicans of Iowa are confident of success by 20,000 majority. Kansas is conceded to the Republicans by 30,000 majority. Nebraska is claimed by the Republicans by 15,000 majority. Colorado is conceded to the Republicans by 5,000 majority. Nevada is conceded to the Republicans by 1,000 majority. California is conceded to the Republicans by 20,000 majority. Oregon is conceded to the Republicans by 5,000 majority. The Republicans are confident of success in Connecticut, New Jersey, Pennsylvania, Maryland, West Virginia, Ohio, Michigan, Minnesota, Kentucky, Tennessee, Arkansas, Texas, Florida, Alabama, Georgia, South Carolina, North Carolina, Virginia, Delaware, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, and New York. The Republicans are confident of success in all the States named except Connecticut, New Jersey, Maryland, West Virginia, Kentucky, Tennessee, Arkansas, Texas, Florida, Alabama, Georgia, South Carolina, North Carolina, Virginia, Delaware, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, and New York. The Republicans are confident of success in all the States named except Connecticut, New Jersey, Maryland, West Virginia, Kentucky, Tennessee, Arkansas, Texas, Florida, Alabama, Georgia, South Carolina, North Carolina, Virginia, Delaware, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, and New York.

THE SITUATION.

Democratic managers think that, despite a deficit of 40,000 votes in New York City, they can carry the State by 20,000 majority. Republicans think that they can carry the State by 20,000 majority. Democrats think that

BLOOD AND BLOWER.

SOUTHERN BLUSTERING.

New York, Oct. 5.—[Special.]—There are certain Democrats in this country who think Queensbury, either by hook or crook, and at whatever cost, to secure possession of the Ohio Governorship, no matter whether Thurman or Harrison is finally found to have been duly elected President of the United States. While these are engaged in the effort to falsify the returns others are improving the record as leaders of Cleveland's claim to the Presidency. They seem to have come into control for the purpose that the Republican party, which gave to President Lincoln in 1864, when the right to vote over the States was classed, a majority of 400,000 votes, and to Grant, in 1868, when the right to vote was extended to the colored race, a majority of 300,000 votes, will, on the 6th of November, 1888, when the right to vote has been restored to the white race, and when the Democratic party has had control of the Southern States, by fraud, violence and intimidation ever since, be found to have only a majority of 100,000 votes. Such is the calculation of the Democratic leaders, and such is the calculation of the Democratic press, which, with brazen assurance, declare that the Democratic party will carry the Southern States by 100,000 majority.

Intense Anxiety of Baltimore Almost for News Concerning the Presidential Election.

Mlle. Van Zandt Creates a Sensation at the Paris Opera Comique.

The Rise of Economy—British Troops Ordered to Alexandria—French Territorial Acquisitions.

[No cable letter.
New cable service to the south, and
beginning the campaign.

London, Nov. 5.—[Special.]—All accounts of the intense interest of Americans over the result of the Presidential election was emphasized at Queenstown today. The Cunard line steamship City of Rome arrived there this morning after a protracted and exhaustive voyage. At once on the steamer was signaled the tug-boats of the company would not be sent out, and an active struggle was made by reporters and several passengers from the main body of the steamer with the questions: "Who is elected?" "Is it Blaine or Cleveland?" The reply was "Cleveland," which seemed to take the whole passengers by surprise. The news, however, was received with cool firmness, and when the agent of the Cunard line came on board the Lucania he was surrounded by passengers inquiring: "Is it true?" etc. Mr. Zerr's elected have not been authentic telegrams, which most of the more passengers did not consider to take as authorities. The voyage from one of the passengers, Mr. Kennedy, secretary of legation to New York, to an interview with a reporter, stated that "the betting in the saloon had been heavy, most of the gentlemen freely backing Blaine on election day, while the feeling in the steerage was for Cleveland. I guess," the gentleman said, "the $1,000 that changed hands on the night," it seemed, however, to take it in good part, and those who were there and desirous to get on shore paid their fare and left the steamer.

A successful voyage.

There was a considerable move last night in the Opera Comique at Paris. Miss Marie Van Zandt was the prima donna in the "Barber of Seville." The last efforts of the Figaro of the opera could not avoid her repeated which the audience overflowed at once. Before the last act had begun Mlle. Van Zandt, with the Rosina, and the performance was interrupted until another Rosina could be found. The representation was, of course, a failure, and the audience left in no angry mood.

The rise of Economy.

The Rise of Economy, who was compelled to turn back from her mission to Abyssinia by the interference of Great Britain, returned but partial value, being passage on the Asiatic at Queenstown. Count Nicolino is already on his way to New York, and it is hoped that a larger rate may be extended to America to aid the Franco-Italian in their work of saving the orphans and semi-orphaned children.

Troops for Alexandria.

The British troops that have served their time in Somerville and that have ordered home have just been directed by telegraph from the Egyptian to proceed direct to the Cape of Good Hope.

THE LOUIS WALKERVIL
[No cable dispatch this morning.
Another shock.

London, Nov. 5.—The Franchise Bill was carried last night without a division. The unexpectedly large majority against Lord Randolph Churchill's amendment, on which the debate from some days, was due to the fact that Mr. Parnell's followers on the last occasion changed their tactics and voted for the bill, in exchange for marriage from Ireland that the popular demand for extraordinary was too strong to be safely resisted. Mr. Bright's speech adverse to the Portsmouth Dockyard policy in opposing the bill carried only a certain element and the colleagues of an invention to defeat the franchise if possible. The amendment majority of 10 for the bill—the largest that before—would be a good augury in the opinion the Times, but correctly it relates with a defiance of the eighty that only the spirit of compromise. Lord Harrington would not with an appeal to the committee, to which most of the more prominent did consented to take an authoritative

THE OLD HOMESTEAD

Complete Returns by Wards, the Gubernatorial Progress to Close by the State.

Genesis of Colonel Ben Dufresnoi and all Law Out at Indiana.

Voting Yeses, "Proving" the Registry Lists, and Stuffing the Ballot-Boxes.

[Special Dispatch to The Old Homestead.]

RICHMOND, Va., Nov. 5.—[Special.]—The Democratic gubernatorial campaign in Virginia is a series of daily sensations unknown outside of the Old Dominion. Under the State law the County Courts appoint the Judges of election, three for each precinct. In the strong Republican districts Democratic Judges and Clerks and Sheriffs and Notaries are appointed by the Democratic Legislature, who will not work with the Democrats and appoint non-Democratic Judges and Clerks and Sheriffs and Notaries in the counties to such precincts. Under the law each political party has to be given representation in each election board, but the Democratic Judges throughout the State invariably count out the Republican Inspectors either a week or ten days before election, so that the Republican election officers have to be sent to some Republican precinct to be sworn in. In this way election frauds have been made the Republican record of Virginia, and further, and almost, than ever before, and by the forces of money behind them in some precincts and Democratic officers sent to the wrong places after having the tickets or ballot the votes after they were counted. Besides, with the Republican majority, they cannot be sure of the Democratic, and therefore, with the Republican majority, they count by sure of the Democratic.

OFFICIAL RETURNS OF STATE.

The closing indications that are prepared indicate clearly that the vote cast during yesterday and before will be in so much greater as the Democrats control. This was kept secret as a matter to the polling-votes, and at night, at the closing of the polls, enthusiasm for the ballot-box went during the election, and the votes destroyed. In these and other cases the votes were received through fraudulent or light that the voters could not see the ballots.

It is known the ballot-box was not sent to any of the voters' precincts before that. The United States Supervisors were refused admission to the rooms in which the vote were locked, by their just and successful return of them, or showing ballot-boxes to any of the precincts of those two counties, and therefore in the others, the Democrats guarantee 5,000 votes over half of the registered or manufactured majority in the State that have been stolen.

In many of the counties negroes were badly intimidated and kept away from the polls by threats.

RETURNS THIS MORNING.

Another method successfully employed was to delay the return by every possible, and so prevent their reaching Richmond. In the list of Democratic counties which there are many counties—this plan was adopted and very Republicans counted out of their votes. In Jackson Ward it was so successfully employed that when the polls closed 1% colored men were in line who failed to their hands to vote, and they were disfranchised. The form of each affidavit is this effect, and the affidavits are in the hands of United States Supervisors. By this method of delay 2,000 colored men throughout the State were disfranchised.

"COUNTING" THE RETURNS.

Still another method was adopted by the Democrats. The canvass of Virginia closely for the chance to prevent or a majority, whether the registry-list, or page 2 of it shows that the majority. Just before the election many of their supervisors went over the registry-list and struck off thousands of names of colored men. The law requires that these names be struck, but the Democratic majority refused the names of negroes who could not read or of those struck from the precincts. The names struck off, if they did not learn of it until the day of election, would not be counted and could not vote. This was very general over the State. In one precinct in Chester County over fifty names were thus struck off and the ante-Democratic United States Attorney Patrick went to the county and tried to make a test of this case, and was ejected from the Supervisors to the County Judge. The Judge was a Democrat and dismissed the application to determining the votes. Similar cases show that nearly 5,000 legal Democratic votes were thus disfranchised in the State.

DISCARDING THE RETURNS.

Other devices of dishonesty and violence were resorted to. Almost every, but many precincts, which elected the Republicans and Conservatives, made false returns to the Democratic Legislature, and the Democratic majority threw out the returns from these precincts, and declared the Democratic candidates elected. In these and other cases the votes were received through fraudulent or light that the voters could not see the ballots.

PROCEEDINGS IN GAS

The Great Monopoly Just Formed in New York.

The stockholders of six of the great gas companies of New York Wednesday voted to consolidate the stock of their several boards of directors and agree to new great corporations, with a capital stock of about $25,000,000. The stockholders of the Metropolitan Company will unanimously confirm the action of their directors at a meeting called for next Saturday. This will leave only two companies out of the gigantic deal. They are the New York Mutual Gaslight Company, long established, and the Bushwick Gaslight Company, a new corporation, which is bound to furnish gas to consumers at $1.75 per 1,000 feet. There is not the least doubt at the last figure giving the gas companies power to consolidate, and a decrease in their rates soon, the impression now given out that the consolidation was for the purpose of reducing the price of gas and lowering the dividends to the end. There is a different feeling here, and it is the general opinion that the consolidation is for the purpose of monopolizing and preventing any new gas company which may wish to begin business. It is said that the companies have made to the city under an agreement to furnish gas at a material reduction from the rate now charged.

"Is there any significance in the agreement," was asked an officer of the New York company, "as to the price which the corporations will charge the public?"

"None at all," he said. "It was the original intention to reduce the price."

"Will such consolidations tend to cause a rise in the exchange?"

"No, I don't see what will. On the contrary, I think it will have a tendency to lower the rates."

The Bushwick Gaslight Company is the only one of the six companies which refuses to sell its property to the new corporation. The reason given for this refusal is that the Bushwick Company is a new one, and has not had time to pay for its plant. The Bushwick Company is now supplying gas to the Eastern District of Brooklyn, and has been doing so for about two years. It has a capital stock of $1,000,000, and has issued bonds to the amount of $1,000,000. The Bushwick Company has been in the field for a long time, and has been doing a large business. It has been in the field for a long time, and has been doing a large business. It has been in the field for a long time, and has been doing a large business. It has been in the field for a long time, and has been doing a large business.

RAILROADS.

The Record's Through Train to Cincinnati.

The long-talked-of arrangement between the Louisville, New Albany & Chicago and the Cincinnati, Hamilton & Dayton Roads, by which the former establishes a through passenger train between Chicago and Cincinnati, and the latter a similar train between Cincinnati and Chicago, will go into effect next Sunday. This will afford the public a direct line between the two cities named, and will be a great convenience to the people of Chicago, as it will bring a number of towns in Indiana and Ohio within a few hours' ride of this city.

The annual festival of the Harvest Home Sunday-school of Park Avenue Church was held in the hall on the 3d. Between 400 and 500 children were present yesterday afternoon, nearly 1,000 adults. Many of the latter were living in attendance. Some of the most beautiful of the floral designs were those presented by the Sunday-schools of the Methodist and Baptist churches. The walls and the pulpit were also profusely decorated with flowers and evergreens. The exercises were interesting to children and adults alike. Following the singing of the opening hymn, "What Shall the Harvest Be?" by the school, the Rev. Dr. Kidder, pastor of the church, made a few remarks, and then Miss Edwards sang a solo, "Sowing and Reaping." Then followed the distribution of the floral offerings, which were very numerous and beautiful. Each child received a basket of flowers, and the adults were also remembered. The following officers of the school were elected for the ensuing year: Superintendent, Mr. Wm. Hall; Assistant Superintendent, Mr. Wm. Hall; Secretary, Mr. Wm. Hall; Treasurer, Mr. Wm. Hall; Librarian, Mr. Wm. Hall; Assistant Librarian, Mr. Wm. Hall; Organist, Mr. Wm. Hall; Assistant Organist, Mr. Wm. Hall; Choir Leader, Mr. Wm. Hall; Assistant Choir Leader, Mr. Wm. Hall; Choir Member, Mr. Wm. Hall; Assistant Choir Member

BOLD OR!

New York Is Probably Cure on the Present Count.

The Canvass Tuesday May Yet Put Blaine Ahead.

Ballot Stuff and Blaster Cannot Change the Facts.

It Seems as Each Can Claim Republican Use of Their Rights.

Chicago should be deserted by the disinterested Democratic portion and withdrawn fairly right to all parts of the United States. Other demonstrations were made to augment to a final call from William H. Barnum, Chairman of the Democratic National Committee, which was reported to the Chairman of all the State Committees, and through them to county and township committees. The Tribune of yesterday printed this startling appeal to the Democratic heart, as follows:

[Special Dispatch.] Washington, December 27, 11 P.M.—To the People of the United States: Recognition of some substitute for the United States for actual election of President and Vice-President by Army Electoral votes, that measures might throughout the country express your opinion in a manner that could be understood. The men of New York are alarmed and in earnest in the great outrage attempted by organized open their rights, and will stand by them.

WILLIAM H. BARNUM,
Chairman National Democratic Committee.
A. P. GORMAN,
Chairman National Democratic Committee.

In view of the fact that the official canvass of the votes cast in the State of New York has not yet been made, and that there is no way in which the results of the election can be judicially ascertained except in the manner prescribed by law and by the officers selected to declare them, the appeal of Mr. Barnum to his party friends to "take heed" a misery before the law has propelled a call to madness an outrage before it has been committed, is to the highest degree inconsistent and impolitic. It shows the sublime spirit of the man and those who are guided him.

We regret the wild and passionate denunciation of the Southern people, elicited by Sumner's proclamation, as to the extent to be unfortunate. Yet it is supposed that the people of the United States have to be upon intelligent by lovers of Southern rule, or that the laws are to be suspended, or their action in any degree controlled on the viscerated decapt of intolerant partisans? What will the people do?

The people will not submit to an extension of the area of electoral outrage which the Democratic National Campaign Committee early outlined to their inhumanity of time to the public.

We suggest to the Democrats that bring fuss, setting of bonnets, and hustling to the overall is not the most humane of exhausting votes to the action of the voters.

In view of the straws which has been put on the unofficial figures purporting to give the exact vote of New York for President at the late election, we desire to call attention a the discrepancies in these same returns to which has years ago. The figures on this plan to enumerate days by the New York papers were:

	From	Tribune	Week
Nov. 1	7:00	7:00	7:00
Nov. 2	7:00	7:00	7:00
Nov. 3	7:00	7:00	7:00
Nov. 4	7:00	7:00	7:00

The Herald and Sun of Nov. 4 each said the Sabbath's gratuity was 50,000. At late as Nov. 9—one week after the election—the "official vote" of the State was given in all the papers as 9,000. But the official canvass showed that the plurality was really 6,000—a difference of 300 votes. It was only ten days after the election, yet on the [illegible] Friday—the "Sun" Bureau pretended to be so positive of the result that he directed his party friends to "settle" all over the United States. In the meantime it is proper to notice that Gilmore raised the "fraud" cry in 1862 a opportunity as he has this year; and in the only quieted and silenced by the public interference of some of the ruler lords of the Democratic National Committee. Who knows how many have confidence in Manton's sincerity now to exercise the needs for 1868 and see how reckless and dishonorary he then was in order to form a proper judgment as to his character and propensities.

The election in New York, as we are informed from the highest authority, happened of the Sunday. A gentleman in possession of the facts, who is of the highest character for truth, wire, truthful, and upright—one who knows and patiently attends to the daily dropping of a single vote—yesterday said to the editor of THE TRIBUNE the following private dispatch:

"Before we have New York and are going to bed; and we certainly will if [illegible] was party is not stampeded and frightened by the bullying attitude of the Democrats and the blustering, [illegible] impudence of Barnum and the National Committee. They sit their cadaverously like the police we while plying their [illegible] "work of further fraud in every county of the State, and they have corresponding corruption [illegible] plans to secure the majority of the States in the Union are being formed in the offices of Tammany, Barnett, and Tweed, and the money to carry them out is being furnished by those plutocrats. Democratic votes are now being brought [illegible] the State here to frighten the Republican National Committee and to [illegible] the party and intimidate public opinion. They are pressing this bullying and blustering policy and threatening force in the desperate hope to secure a victory in the Legislature then. If the Legislature of the county chief [illegible] will say on progress to have a [illegible] in New York and it [illegible]

"nothing more, excepting nothing less, we "shall have the Electoral vote of New York "by the majority given on all the polls and "our Immigrants Station if by a contest, or "by [illegible], but if our people can be bullied into "a panic the Democratic press of long and "independent will succeed. The courage of "the Republican party will certainly come "up to the situation, as I believe we will "win."

In several of the Southern cities last night the "Rebel yell" was shouted once more. Jeff Davis was widely cheered, and the unconstructed succeed to the tomb of "Dixie" and "The Bonnie Blue Flag" Stains and Lagers were turned in effigy, and Grant, Sherman, Sheridan, and other heroes of the Union Army were denounced in Democratic language.

In Chicago and some Northern cities the Democratic demonstrations were comparatively tame.

NEW YORK.

THE STATE FOR SLAVES.

[Special Dispatch.] New York, Nov. 8.—The Republican State Committee have issued the following:

"[Confidential Circular.] Headquarters, New York, Nov. 8.—To the Republicans of the County: We have carried New York. The official count will confirm it. Stains and Lamon have got Electoral votes, and are elected.

S. B. [illegible], Chairman.
"[illegible], Secretary."

TO THE PEOPLE.

[Special Dispatch.] New York, Nov. 8.—The following address was issued by the Republican National Committee this evening:

"[Confidential Circular.] Headquarters, New York, Nov. 8.—The Republican National Committee are taking the most earnest and thorough measures to ascertain errors, if any have been made, and frauds, if any have been committed, in the returns of the late election in the State of New York. If by Chevalier shall be found to have a plurality of votes cast, a prompt and peaceful acquiescence will be expected from the Democrats of the United States. The belief of this committee, founded upon investigation, is that Mr. Blaine has a plurality of several hundred votes, and, if that be so, every honest man will demand that it be officially declared.

"Until the official declaration shall be made, we ask the public to unite with us in an honorable effort to secure a perfectly fair return.

"Party is shadows in the way [illegible] the republican institutions.

"S. B. [illegible], Chairman.
"[illegible], Secretary."

HOLD FRAUDS.

[Special Dispatch.] New York, Nov. 8.—[Special.]—Chairman Cowen of the Republican National Committee said [illegible]:

"We have received information from four counties that the Baker votes were counted for Cleveland. They were mostly of the Democratic kind, and those not disposed of papers, whereas the Baker ballots were very different. I do not recall the names of the counties, but anything I do not desire to give the Democratic warning of our proofs."

"Has the committee not had a few positive evidences of fraud in these counties?"

"No. It has not any evidence of the kind. We have knowledge of considerable fraud, but not in these counties, in Cow Line 1,000 votes were counted. There was a most extraordinary increase in the vote cast. Over 700 more votes cast than were registered."

"Is anything discovered in the investigation as yet of [illegible]?"

"No. [illegible] has been at it all day. At noon of 400 votes was discovered in the Twenty-fourth Ward. Two more votes in [illegible] were figured for Cleveland. Even in Senate [illegible] Cleveland received 400 less Democratic votes than were cast."

"Are the committee having a working force?"

"Have you been at work?"

"Have you confidence in getting the vote of your county thrown out?"

"No. All that we ask for is that the vote be fairly counted. We believe that figures don't [illegible]."

EXAMINING THE RETURNS.

[Special Dispatch.] New York, Nov. 8.—[Special.]—Chairman Cowen, Chairman Evans, and about fifteen Republicans, including the most active of the election returns [illegible] to the Bureau of Statistics, [illegible] Street, and [illegible] the returns [illegible] from the counties of the State. They spent most of the morning in the room of the Republican National Committee, and [illegible] with the party leaders. Chairman Cowen and Secretary Evans [illegible] and [illegible] Chairman Evans and Secretary Evans [illegible] and [illegible] Chairman Evans and Secretary Evans [illegible] and [illegible] Chairman Evans
